ego

smart Wi-Fi socket

The **ego smart Wi-Fi socket** gives you control over your home appliances and devices. Turn your home devices on and off and monitor their energy use from anywhere.

Key features

- **Appliance Control:** Switch an appliance or a group of appliances from your smartphone.

- **Energy Monitoring:** Real-time or historical energy consumption display.

- **Schedule Timers:** Set timers for automatic switching of devices.

- **Standby Elimination:** Set the ego to turn off appliances left on standby for too long.

Setup couldn't be easier!

We've designed the **ego** to be quick and easy to install so you can start to monitor and control in a few minutes.

1
Download and install the free 'Efergy ego' app

2
Plug in your ego and pair it with your smartphone

3
Connect your appliances monitor and control them
